LEXCO
FITNESS EQUIPMENT

Run with LEXCO!

With our products exceptional quality and long history of reliability, LEXCO has become a trusted partner for health clubs, high-end fitness centers, large corporations, universities, government facilities and countless public institutions. LEXCO provides an excellent value through maintaining the industry's lowest cost of ownership. In addition to supplying the best products, it provides various consulting from construction design to finance. Our customers are our focus. We appreciate our customers and do our very best to provide world class post sale support. LEXCO, we manufacturer premium quality commercial cardio and strength products

“ENGINEERING EXCELLENCE”

Our company has over 28 years of product design

And manufacturing experience that has led to our products earning several industry awards for both design and quality. Our team carefully listens to our customers needs to provide equipment that meets or exceeds their demands. We implement efficient processes throughout all stages of product development, procuring raw materials direct from foundries, using many standardized parts and by employing a highly skilled team to manufacture LEXCO products in our high-tech factory.

ISO9001/ISO14001

Head Office & 1st Factory

1st Factory

2nd Factory / 3rd Factory

4th Factory

The 4th factory is underway, reinforcing our commitment to innovation, growth, and greater efficiency.

LEXCO fitness equipment is based on accumulated know-how based on biomechanics, design, safety, and energy efficiency.

1 LEXCO technicians and engineers verify product performance by utilizing vast amounts of data ranging from elite athletes challenging limitations to beginners aiming to increase muscle strength.

2 LEXCO does not share frames and injection moldings. Also it does not hesitate to change numerous proposals and pay for design. LEXCO's DNA was reflected in the product and won a number of design awards such as red dot award and good design. This is because LEXCO's design is the only and identity.

3 LEXCO holds NRTL/FCC certification which is the largest safety management certification in North America, Europe CE certification, and Korea KC certification. The auto-stop function of the Treadmill and the ABS double-sided injection cover of weight equipment help customers who use Lexco operate their businesses stably. It also spends a lot of time on product use and maintenance training and shares it with customers. This is because LEXCO puts customer success first.

TREADMILL

CARDIO-Beginning of a new evolution

Providing users with useful features to be used today and in the future can offset boredom while utilizing entertainment features. LEXCO's high-end cardio equipment provides functions such as smart mirroring, watching YouTube, trekking in virtual space, and charging wired and wireless mobile phones based on the Android operating system.

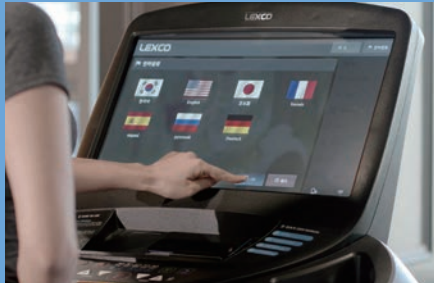

Smart Mirroring

Android OS, Virtual Active screen

Wireless mobile charging (Compatible with newer Android and Apple devices)

Choose between 7 languages

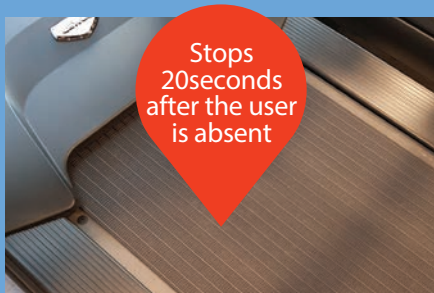

Various Exercise modes

Internet, YouTube, TV

Wireless heartrate measurement

Auto Stop

Rear safety guard

Dual speed & Incline buttons

Pre-lubricated deck/slippery prevented belt

CARDIO
Treadmill

LT8xA

The LT8xA maximizes user-friendly conveniences.

- Equipped with a 23" capacitive touchscreen, an Android OS that features 30 virtual world renowned courses, Internet Browsing, applications such as YouTube, TV and smart mirroring using mobile phones. Bluetooth earphone function. Quickly switch the screen to perform the user's operation accurately, you can check the exercise information while using the entertainment function.
- Integrated handlebar speed and incline adjustment controls, patented advanced maintenance-free deck with anti-static insert, mobile phone wireless charging system, anti-slip belt, rear safety guard, automatic drive belt tension control, earphone terminal for TV, data transfer and mobile phone charging USB terminal, emergency stop button & clip are provided as standard.

	LT8xA
Monitor	Embedded 23" Touch Screen LED TV
Display	Android UI

CARDIO
Stepmill

LCS8A

The Stepmill LCS8A is a product that maximizes user oriented convenience and safety.

- 15.6" embadded touch screen Android OS provides Internet, video, TV viewing, smart mirroring using a mobile phone, and Bluetooth functions.
- Quick screen switching allows users to accurately perform operations and check exercise information while using entertainment functions.
- Assistance footrest allows the user to climb up and down easily and safely from the back, and a Side step is designed for a short break during exercise, making this stepmill excellent for safety and exercise efficiency.
- The compact size makes it ideal for sports centers and hotels with limited space
- Exercise information such as time, steps number, floors, calories, SPM, WATTS, METS, heart rate, and exercise results are displayed.
- For the user's convenience during exercise, the handle is equipped with a start/stop button and a 25 level speed control button.
- Mobile device tray/reading rack, mobile device charging via USB terminal, cup holder and handle mounted start/stop and speed control button are standard features.

STRENGTH

STRENGTH – LEXCO Strength machines !

Designed based on accumulated know-how, they have been manufactured by highly skilled technical staffs.

We select and purchase raw materials by ourselves, process them according to LEXCO's design philosophy, standardize all parts, and use dedicated high-tech production facilities.

LS | **MASTERPRO** | **MASTER** | *Taurus*

STRENGTH
Machine

LS series

The LS series strength by LEXCO is packed with premium features, enhanced aesthetics and is built by employing expert manufacturing techniques. Our biomechanics experts design the equipment with proper ergonomics that produce maximum results while being easy to use, safe and comfortable. Durable ABS shrouds, pre-shaped memory foam pads and detents that keep cables on the pulleys name just a few standard features.

Independent Movement Arms

On applicable units, we use independent arms with converging/diverging movement for a superior workout.

Backrest adjustment lever

The gas spring shock absorber-type adjustment lever provides the user with the optimal exercise path by adjusting the backrest to 10 steps along with the aluminum rack guide.

Frame Tubing

We utilize high quality steel tubing with radius edging to enhance aesthetics and provide excellent durability.

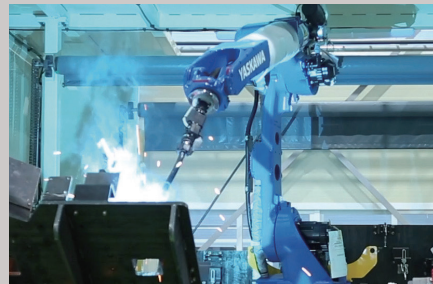

Seat Height Adjustment Lever

Units with adjustable seat heights are equipped with a lever and gas assist for quick and easy seat adjustments.

Push Pivot motion adjustment lever

Units with adjustable push pivot motion adjustment lever are equipped with an easy-to-operate push button adjustment lever.

Jigs

Our LS Falcon Series strength is manufactured with the utilization of jigs to ensure stability and accuracy when welding.

Foot Assist

As an additional safety and comfort feature, some units are equipped with a foot assist so the user can set the start/stop position.

ABS Shrouds

Durable full length ABS shrouds do many things; increase safety, enclose internal parts and increase aesthetics.

Preformed Seat Pads

Premium preformed memory foam seat pads and upholstery are standard features.

Seat Back Covers

ABS injection cover is applied to the rear of the invisible backrest seat to improve completeness to satisfy the meticulous aesthetic elements.

The LS series selectorized strength line is loaded with premium features that we include as standard equipment such as;

Gas assisted seat adjustments via easy-to-use control levers, easy-to-use lever with push button for quick push pivot motion adjustments, full length ABS shrouds, ABS seat back covers, preformed memory foam pads with marine grade upholstery resistant to sweat and more. Our biomechanics experts have designed each unit for proper ergonomics and muscle recruitment to ensure the user achieves excellent results.

When possible, we utilize independent movement arms on converging & diverging axis for enhanced results. In all, the LS series strength will provide the best possible exercise for users of all abilities.

LS-101

Pec Fly / Rear Delt

- **Dimensions** : L1,010 × W1,280 × H1,950mm
(39,8" × 50,4" × 76,8")
- **Unit Weight** : 279kg (615lbs)
- **Stack Weight** : 100kg (220lbs)
- Dual-function unit performs both pec fly and rear delt.
- Gas assisted seat height adjustment with (10) positions
- Full Length dual-side ABS shrouds

LS-102

Lat Pull Down

- **Dimensions** : L1,615 × W1,095 × H2,242mm
(63,6" × 43,1" × 88,3")
- **Unit Weight** : 255kg (562lbs)
- **Stack Weight** : 100kg (220lbs)
- Height adjustable thigh hold down pads for stability
- Integrated thigh pad handle for quick adjustments
- Full Length dual-side ABS shrouds

LS-103

Seated Chest Press

- **Dimensions** : L1,430 × W1,437 × H1,940mm
(56,3" × 56,6" × 76,4")
- **Unit Weight** : 282kg (622lbs)
- **Stack Weight** : 100kg (220lbs)
- Independent converging arms for excellent muscle contraction
- Gas assisted seat height adjustment with (10) positions
- Foot assist for user defined start & stop positions
- Full Length dual-side ABS shrouds

LS-104

Shoulder Press

- **Dimensions** : L1,307 × W1,358 × H1,506mm
(51,5" × 53,5" × 59,3")
- **Unit Weight** : 253kg (578lbs)
- **Stack Weight** : 100kg (220lbs)
- Independent converging arms for excellent muscle contraction
- Gas assisted seat height adjustment with (10) positions
- Full Length dual-side ABS shrouds

LS-105

Incline Press

- **Dimensions** : L1,439 × W1,421 × H1,619mm
(56,7" × 56,0" × 63,7")
- **Unit Weight** : 245kg (540lbs)
- **Stack Weight** : 100kg (220lbs)
- Independent converging arms for excellent muscle contraction
- Gas assisted seat height adjustment with (10) positions
- Foot assist for user defined start & stop positions
- Full Length dual-side ABS shrouds

LS-106

Butterfly

- **Dimensions** : L1,397 × W1,488 × H1,506mm
(55,0" × 56,6" × 59,3")
- **Unit Weight** : 292kg (644lbs)
- **Stack Weight** : 100kg (220lbs)
- Independent arms for balanced workout
- Gas assisted seat height adjustment with (10) positions
- Foot assist for user defined start & stop positions
- Full Length dual-side ABS shrouds

LS-107

Biceps Curl

- **Dimensions** : L1,080 × W1,410 × H1,506mm
(42,5" × 55,5" × 59,3")
- **Unit Weight** : 226kg (498lbs)
- **Stack Weight** : 100kg (220lbs)
- Independent arms for excellent muscle contraction
- Arm pads have fore / aft adjustments for better fitment
- Gas assisted seat height adjustment with (10) positions
- Full Length dual-side ABS shrouds

LS-108

Low Row

- **Dimensions** : L1,780 × W952 × H1,725mm
(70,1" × 37,5" × 67,9")
- **Unit Weight** : 220kg (485lbs)
- **Stack Weight** : 100kg (220lbs)
- Extended pull design for better workout variety
- Solid EP rubber footpads for secure footing
- Full Length dual-sided ABS shrouds
- Includes attachment bar

LS-109

Seated Dip

- **Dimensions** : L1,524 × W1,069 × H1,506mm
(60,0" × 42,1" × 59,3")
- **Unit Weight** : 256kg (564lbs)
- **Stack Weight** : 100kg (220lbs)
- Gas assisted seat height adjustment with (10) positions
- Rotary handles provide user with narrow or wide grip
- Seat back angle ensures proper leverage
- Full Length dual-side ABS shrouds

LS-110

Abdominal

- **Dimensions** : L1,246 × W1,284 × H1,506mm
(49,1" × 50,6" × 59,3")
- **Unit Weight** : 237kg (523lbs)
- **Stack Weight** : 100kg (220lbs)
- Gas assisted seat height adjustment with (10) positions
- Upper seat back angle ensures proper muscle recruitment
- Elbow pads provide leverage and stability
- Full Length dual-side ABS shrouds

LS-111

Compact Cable Crossover

- **Dimensions** : L1,270 × W2,900 × H2,300mm
(50.0" × 114.2" × 90.1")
- **Unit Weight** : 460kg (1,014lbs)
- **Stack Weight** : 200kg (440lbs)
- 36 vertical adjustments provide numerous exercises
- Independent weight stacks
- Full Length dual-side ABS shrouds
- (1) Curl bar, (1) Straight bar,
(1) Tricep Rope, (2) Handles

LS-113

Rotary Torso

- **Dimensions** : L1,058 × W951 × H1,495mm
(41.7" × 37.4" × 58.9")
- **Unit Weight** : 219kg (483lbs)
- **Stack Weight** : 100kg (220lbs)
- Upper torso handlebar assembly has gas assist for easy user adjustment
- Comfortable knee pads provide leverage
- Full Length dual-side ABS shrouds

LS-114

Assisted Chin / Dip

- **Dimensions** : L1,318 × W1,137 × H2,273mm
(51.8" × 44.7" × 89.4")
- **Unit Weight** : 256kg (564lbs)
- **Stack Weight** : 100kg (220lbs)
- Revolving dip handles provide both a narrow and wide position
- Dual position chin up handles provide narrow and wide grip
- Dip knee pad folds down when performing chin ups
- Dual height steps for easy entry / exit
- Full Length dual-side ABS shrouds

LS-115

Leg Extension

- **Dimensions** : L1,311 × W997 × H1,506mm
(51.6" × 39.3" × 59.3")
- **Unit Weight** : 238kg (525lbs)
- **Stack Weight** : 100kg (220lbs)
- Gas assisted seat fore / aft adjustment with (10) positions
- Seat angle provides ideal leverage and proper muscle contraction
- Adjustment lever with push button to adjust ankle pad height
- Full Length dual-side ABS shrouds

LS-116

Seated Leg Curl

- **Dimensions** : L1,515 × W997 × H1,506mm
(59.7" × 39.3" × 59.3")
- **Unit Weight** : 243kg (536lbs)
- **Stack Weight** : 100kg (220lbs)
- Gas assisted seat fore / aft adjustment with (10) positions
- Seat angle provides ideal leverage and proper muscle contraction
- Adjustment lever with push button to adjust ankle pad height
- Full Length dual-side ABS shrouds

LS-117

Seated Leg Press

- **Dimensions** : L1,885 × W1,272 × H1,720mm
(74.2" × 50.1" × 67.7")
- **Unit Weight** : 321kg (708lbs)
- **Stack Weight** : 100kg (220lbs)
- Seat fore / aft adjustment with (15) positions
- Seat angle provides ideal leverage and proper muscle contraction
- Solid EP rubber foot plate provides excellent traction
- Full Length dual-side ABS shrouds

LS-118

Inner / Outer Thigh

- **Dimensions** : L1,546 × W850 × H1,565mm
(60.1" × 33.5" × 61.6")
- **Unit Weight** : 266kg (586lbs)
- **Stack Weight** : 100kg (220lbs)
- Dual function abductor / adductor with rotating pads for quick changes
- Adjustable motion range settings via easy to operate pop pin
- Full Length dual-side ABS shrouds

LS-119

Total Hip

- **Dimensions** : L1,390 × W1,140 × H1,565mm
(54.7" × 44.9" × 61.6")
- **Unit Weight** : 257kg (567lbs)
- **Stack Weight** : 100kg (220lbs)
- Carriage uses gas assist and allows user to make easy height adjustments
- Adjustable R.O.M. settings by easy-to operate pop pin
- Full Length dual-side ABS shrouds

LS-120

Prone Leg Curl

- **Dimensions** : L1,725 × W1,018 × H1,506mm
(67.9" × 40.0" × 59.3")
- **Unit Weight** : 221kg (487lbs)
- **Stack Weight** : 100kg (220lbs)
- Seat angle provides ideal leverage and proper muscle contraction
- Adjustment lever with push button to adjust ankle pad height
- Handlebars with forearm pads provide excellent leverage
- Full Length dual-side ABS shrouds

LS-121

Glute

- **Dimensions** : L1,250 × W1,020 × H1,610mm
(49.2" × 40.1" × 63.3")
- **Unit Weight** : 235kg (518lbs)
- **Stack Weight** : 100kg (220lbs)
- Solid EP rubber foot plate provides excellent traction
- Handlebars with forearm pads provide excellent leverage
- Full Length dual-side ABS shrouds

LS-122

Back Extension

- **Dimensions** : L1,150 × W1,060 × H1,510mm
(45.2" × 41.7" × 59.4")
- **Unit Weight** : 229kg (505lbs)
- **Stack Weight** : 100kg (220lbs)
- Adjustable motion range settings via easy to operate pop pin
- Full Length dual-side ABS shrouds

STRENGTH
Machine

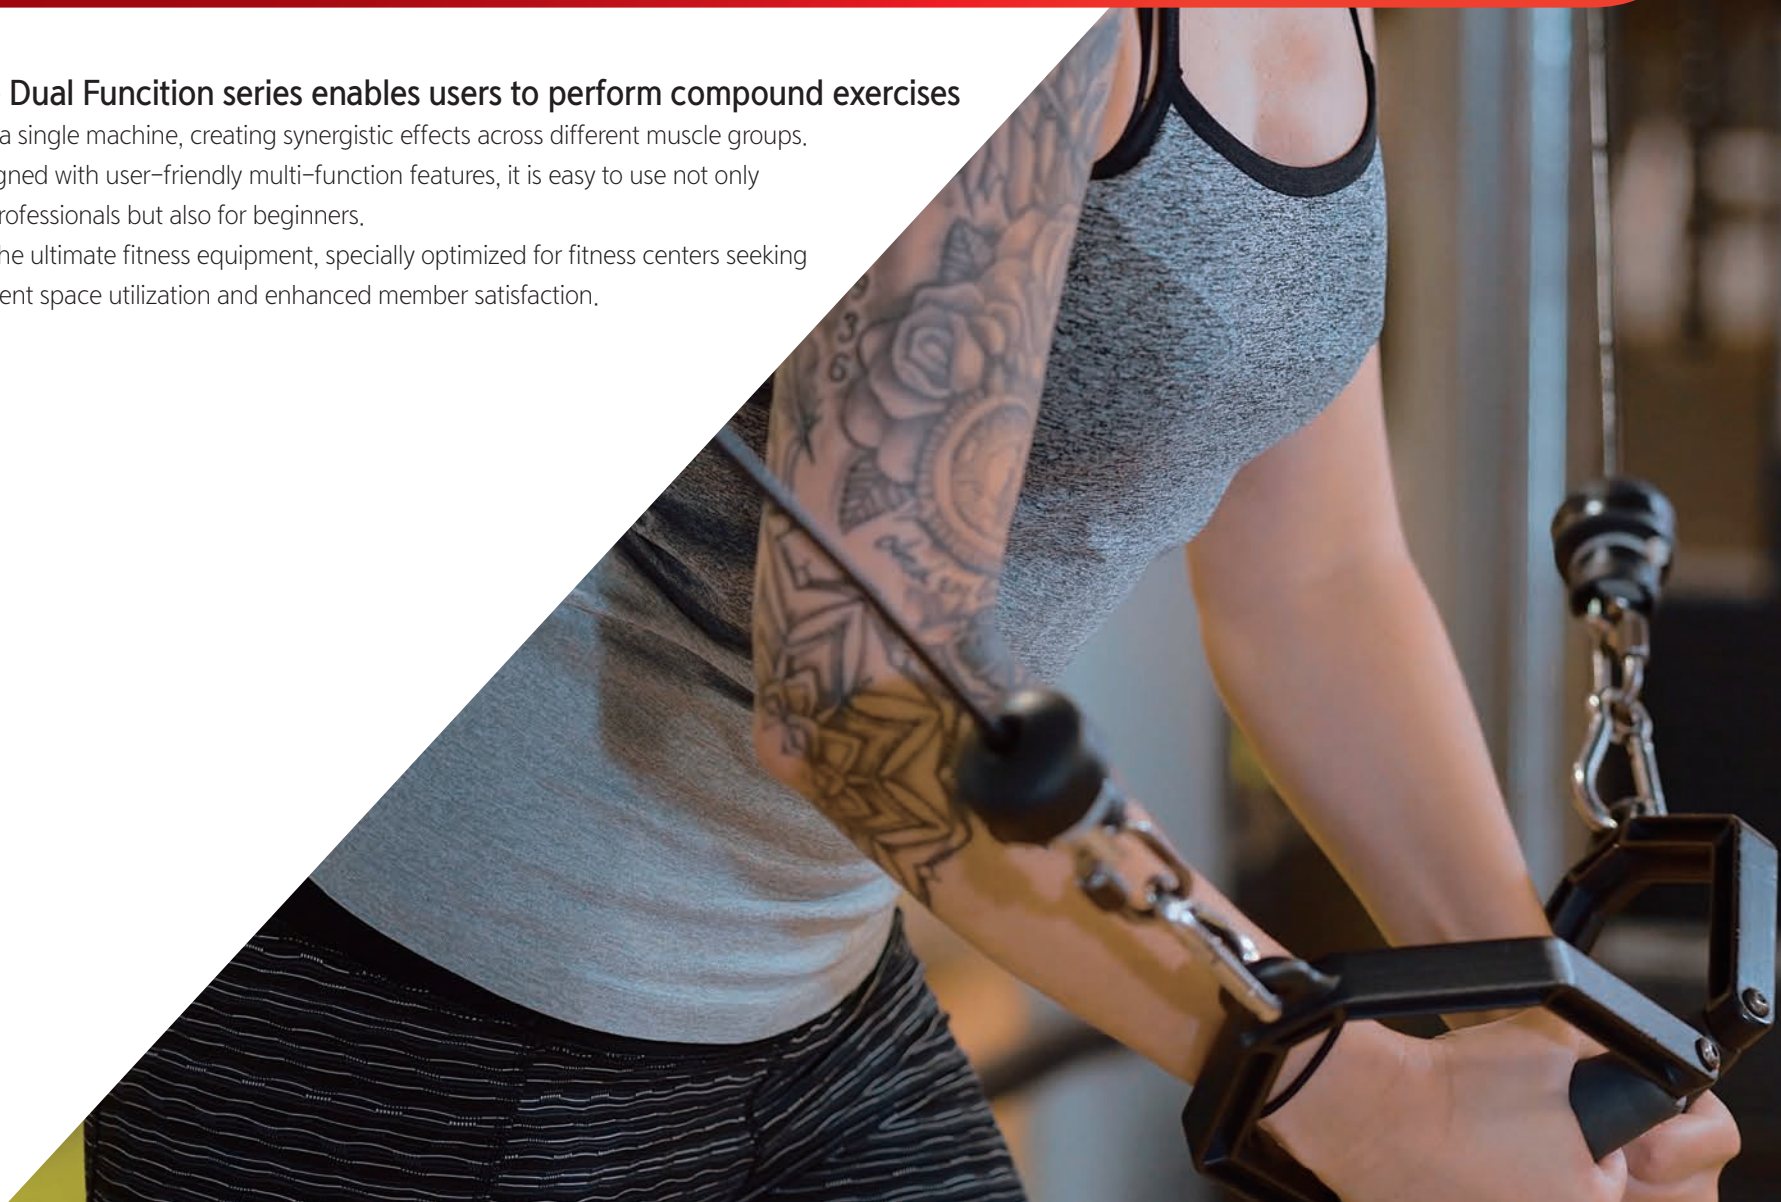

LS *Dual Function*

The Dual Function series enables users to perform compound exercises

with a single machine, creating synergistic effects across different muscle groups.

Designed with user-friendly multi-function features, it is easy to use not only for professionals but also for beginners.

It is the ultimate fitness equipment, specially optimized for fitness centers seeking efficient space utilization and enhanced member satisfaction.

LS-701

Multi Press

- **Dimensions** : L2,011 × W1,300 × H1,517mm
(79.2" × 51.1" × 59.7")
- **Unit Weight** : 297kg (656lbs)
- **Stack Weight** : 100kg (220lbs)
- 3 functions : Chest Press, Incline Press & Shoulder Press
- Quick seat and press arm adjustments with pop pins
- Full Length dual-side ABS shrouds

LS-702

Lat Pull Down / Low Row

- **Dimensions** : L2,140 × W1,280 × H2,235mm
(84.3" × 50.4" × 88.0")
- **Unit Weight** : 267kg (589lbs)
- **Stack Weight** : 100kg (220lbs)
- Seat pad adjusts for proper angle to ensure the effectiveness of both exercises
- Quick seat and thigh pad adjustments with pop pins
- Solid EP rubber foot pads provide excellent traction
- Full Length dual-side ABS shrouds

LS-703

Leg Extension / Prone Leg Curl

- **Dimensions** : L1,400 × W1,080 × H1,550mm
(55.1" × 42.5" × 61.1")
- **Unit Weight** : 275kg (606lbs)
- **Stack Weight** : 100kg (220lbs)
- 2 functions; Leg Extension & Prone Leg Curl
- Pads adjust to proper angles to ensure the effectiveness of both exercises
- Quick seat, back / chest pad adjustments with pop pins
- Grip handles for Prone Leg Curl position increase leverage
- Full Length dual-side ABS shrouds

LS-704A

Dual Pulley

- **Dimensions** : L1,646 × W980 × H1,637mm
(64.8" × 38.5" × 64.4")
- Maximum gap between pulley : L3,054mm(120.2")
- **Unit Weight** : 284kg (626lbs)
- **Stack Weight** : 125kg (276lbs)
- 4 accessory holders on each side
- Left and right 9 level adjustment
- Up and down 10 level gas shock absorber adjustment
- Full Length dual side ABS shrouds

STRENGTH
Machine

MASTERPRO

LEXCO's new strength series, MASTER PRO

For the best stimulation of the target muscle and the maximum increase in the range of motion, the movement of the plate loaded driven independently from side to side is designed to realize the optimal angle of motion.

In addition, one of the special features of MASTER PRO, the push button pivot motion and the 10-step gas spring + rack gear seat adjustment are applied to the plate loaded machines which will have the best exercise effect for both experts and the general users, focusing on improving all user's exercise efficiency.

LPS-101

Pec Fly / Rear Delt

- **Dimensions** : L766 × W1,473 × H2,060mm (30,1" × 57,9" × 81,1")
- **Unit Weight** : 260kg (573lbs)
- **Stack Weight** : 100kg (220lbs)
- Handlebars provide both narrow and wide grip positions for variety exercise angles
- 11-step backrest adjustment, 7-steps handlebars adjustment (L/R)
- Gas assisted seat height adjustment with (10) positions
- Ergonomic curved urethane memory foam seat
- Full length dual-side ABS shrouds

LPS-102

Lat Pull Down

- **Dimensions** : L846 × W1,787 × H2,259mm (33,3" × 70,3" × 88,9")
- **Unit Weight** : 221kg (487lbs)
- **Stack Weight** : 100kg (220lbs)
- Stable 7-step adjustable thigh pad
- Ergonomic urethane memory foam seat
- Full length dual-side ABS shrouds

LPS-102F

Fixed Pull Down

- **Dimensions** : L1,338 × W1,511 × H1,861mm (52,6" × 59,4" × 73,2")
- **Unit Weight** : 244,5kg (539lbs)
- **Stack Weight** : 100kg (220lbs)
- Provide stable path of motion with fixed handle
- Counter-balanced take off weight for user lift only selected weight
- Gas assisted seat height adjustment with (10) positions
- Full length dual-side ABS shrouds

LPS-103

Seated Chest Press

- **Dimensions** : L1,605 × W1,085 × H1,421mm (63,1" × 42,7" × 55,9")
- **Unit Weight** : 231,5kg (510lbs)
- **Stack Weight** : 100kg (220lbs)
- 5-Stage handle front/back adjustment that provides various positions
- Gas assisted seat height adjustment with (10) positions
- Ergonomic curved urethane memory foam seat/backrest
- Full length dual-side ABS shrouds

LPS-104

Shoulder Press

- **Dimensions** : L1,469 × W1,522 × H1,368mm
(57,8" × 59,5" × 53,8")
- **Unit Weight** : 245,5kg (541,2lbs)
- **Stack Weight** : 100kg (220lbs)
- Dual position handles providing exercise diversity
- Provide counter-balanced take off weight for user lift only selected weight
- Ergonomic curved urethane memory foam seat/backrest
- Gas assisted seat height adjustment with (10) positions
- Full length dual-side ABS shrouds

LPS-107

Biceps Curl

- **Dimensions** : L1,074 × W1,433 × H1,368mm
(42,2" × 56,4" × 53,8")
- **Unit Weight** : 206kg (454lbs)
- **Stack Weight** : 75kg (165lbs)
- Provide counter-balanced take off weight for user lift only selected weight
- Gas assisted seat height adjustment with (10) positions
- Ergonomic curved urethane memory foam seat/elbow pad
- Full length dual-side ABS shrouds

LPS-110

Abdominal

- **Dimensions** : L980 × W1,260 × H1,368mm
(38,5" × 49,6" × 53,8")
- **Unit Weight** : 240kg (529lbs)
- **Stack Weight** : 100kg (220lbs)
- 11-Step adjustable footrest provides foot comfort positioning without unnecessary movement
- Provide counter-balanced take off weight for user lift only selected weight
- Gas assisted seat height adjustment with (10) positions
- Ergonomic curved urethane memory foam seat/pads
- Full length dual-side ABS shrouds

LPS-112

Dual Cable

- **Dimensions** : L1,705 × W1,285 × H2,280mm
(67,1" × 50,5" × 89,7")
- **Unit Weight** : 425,5kg (938lbs)
- **Stack Weight** : 150kg (330lbs)
- 19-Step height adjustable handles, 14-step rotating handles provide diversity of motion with pop-pins
- 11-Step up/down & 18-step front/back fixing chest pad that provides various positions with pop-pins
- Dual handle chip-up bar

LPS-114

Standing Chin up

- **Dimensions** : L1,565 × W1,414 × H2,460mm
(61.6" × 55.6" × 96.8")
- **Unit Weight** : 330kg (727lbs)
- **Stack Weight** : 75kg (165lbs)
- Exercise available assist footrest with knees extended
- Width adjustable dipping handles
- Dual position chin up handles provide narrow and wide position
- Full length dual-side ABS shrouds

LPS-115

Leg Extension

- **Dimensions** : L1,110 × W1,390 × H1,368mm
(43.7" × 54.7" × 53.8")
- **Unit Weight** : 258kg (568lbs)
- **Stack Weight** : 100kg (220lbs)
- Ankle position pad adjustable 9-step push button
- Provide counter-balanced take off weight for user lift only selected weight
- Gas assisted backrest adjustment with (11) positions
- Ergonomic curved urethane memory foam seat/backrest
- Full length dual-side ABS shrouds

LPS-116

Seated Leg Curl

- **Dimensions** : L1,102 × W1,581 × H1,368mm
(43.3" × 62.2" × 53.8")
- **Unit Weight** : 244kg (537lbs)
- **Stack Weight** : 100kg (220lbs)
- Ankle position pad adjustable 9-step push button
- 5-step knee fixing device
- Provide counter-balanced take off weight for user lift only selected weight
- Gas assisted backrest adjustment with (11) positions
- Ergonomic curved urethane memory foam seat/backrest
- Full length dual-side ABS shrouds

LPS-117

Seated Leg Press

- **Dimensions** : L1,075 × W1,890 × H1,952mm
(42.3" × 74.4" × 76.8")
- **Unit Weight** : 440kg (770lbs)
- **Stack Weight** : 154.5kg (340.6lbs)
- Providing dual sliding rail type movement for diversity exercise
- Squat position available angled rear rail
- 7-step backrest adjustment and 7-step footrest adjustments
- Ergonomic curved urethane memory foam seat/backrest

LPS-118

Inner Thigh

- **Dimensions** : L795 × W1,685 × H1,625mm
(31.2" × 66.3" × 63.9")
- **Unit Weight** : 260kg (573lbs)
- **Stack Weight** : 75kg (165lbs)
- 8-Step thigh pad adjustment
- Ergonomic curved urethane memory foam seat/backrest
- Full Length dual-side ABS shrouds

LPS-119

Total Hip

- **Dimensions** : L995 × W1,798 × H1,806mm
(39.1" × 70.7" × 71.1")
- **Unit Weight** : 275kg (606lbs)
- **Stack Weight** : 75kg (165lbs)
- 11-step foot plate up/down adjustments
- 29-step adjustable height setting by easy operate pop-pin
- Full Length dual-side ABS shrouds

LPS-120

Prone Leg Curl

- **Dimensions** : L1,004 × W1,703 × H1,368mm
(39.5" × 67.0" × 53.8")
- **Unit Weight** : 242.5kg (534.6lbs)
- **Stack Weight** : 100kg (220lbs)
- Adjustment lever with 7-step push button to adjust ankle pad height
- Provide counter-balanced take off weight for user lift only selected weight
- Ergonomic urethane memory foam seat
- Full Length dual-side ABS shrouds

LPS-121

Seated Row

- **Dimensions** : L947 × W1,291 × H1,940mm
(37.2" × 50.8" × 76.3")
- **Unit Weight** : 260.5kg (574.3lbs)
- **Stack Weight** : 100kg (220lbs)
- Gas assisted seat adjustment with (11) positions
- Dual position handles providing exercise diversity
- Ergonomic curved urethane memory foam seat
- Full Length dual-side ABS shrouds

LPS-122

Standing Multi Fly

- **Dimensions** : L882 × W1,292 × H2,143mm
(34,7" × 50,8" × 84,3")
- **Unit Weight** : 414kg (912lbs)
- **Stack Weight** : 154,5kg (340,6lbs)
- 18-step handle adjustments
- Gas assisted footplate height adjustment with (11) positions
- Full Length dual-side ABS shrouds

LPS-123

Outer Thigh

- **Dimensions** : L825 × W1,685 × H1,625mm
(32,4" × 66,3" × 63,9")
- **Unit Weight** : 263kg (579lbs)
- **Stack Weight** : 75kg (165lbs)
- Top and bottom handles provide exercise diversity
- 8-step thigh pad adjustment
- Ergonomic curved urethane memory foam seat
- Full Length dual-side ABS shrouds

LPS-124

Hip Thrust

- **Dimensions** : L2,005 × W924 × H1,363mm
(78,9" × 36,3" × 53,6")
- **Unit Weight** : 303kg (668lbs)
- **Stack Weight** : 100kg (220lbs)
- 9-step sliding adjustment considering users height
- Hip joint pads leading free movement trajectories
- Full length dual-side ABS shrouds
- 8-step up/down seat adjustments

- **Configuration** : Cable × 2

Product Features

- Multi-station system for simultaneous cable exercises.
- Space-efficient all-in-one design
- High-quality pulleys and cables
- Customizable station configuration
- Urethane foam memory padding

* Customers are free to choose the configuration of
the machine.

Taurus

LEXCO's 2025 new strength series, TAURUS has named after a heavy muscled BULL.

This series is designed to achieve superior quality and performance through technical expertise.

As applying the stack sets on both left and right sides, the user's flexible exercise effect and satisfactory results can be derived.

- Independent both side stack movement allows user feel the plate load machines type movement

- Excellent durability frame

- 8-stage rotating gas spring saddle adjustment

- Lever-type backrest adjustment

- Assistance handle to maximize exercise effect

- Neutral grip handle

LTS-101

Chest Press

- **Dimensions** : L1,430 × W919 × H1,834mm
(56.2" × 36.1" × 72.2")
- **Unit Weight** : 331kg(729.7lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72.5kg
- Even resistance profile, maximized chest activation
- 8-level gas spring assist
- Independent weight setting available

LTS-102

Incline Press

- **Dimensions** : L1,430 × W919 × H1,834mm
(56.2" × 36.1" × 72.2")
- **Unit Weight** : 331kg(729.7lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72.5kg
- Focused upper chest activation, shoulder-friendly design
- 8-level gas spring assist
- Independent weight setting available

LTS-103

Decline Press

- **Dimensions** : L1,500 × W905 × H1,696mm
(59.0" × 35.6" × 66.7")
- **Unit Weight** : 343kg(756.1lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72.5kg
- Focused lower chest activation
- 8-level gas spring assist
- Independent weight setting available

LTS-104

Shoulder Press

- **Dimensions** : L1,430 × W1,456 × H1,446mm
(56.2" × 57.3" × 56.9")
- **Unit Weight** : 341kg(751.7lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72.5kg
- Optimized path of motion for front deltoid activation
- 8-level gas spring assist
- Independent weight setting available

LTS-105

Lateral Low

- **Dimensions** : L1,326 × W1,153 × H1,896mm
(52.2" × 45.3" × 74.6")
- **Unit Weight** : 402.5kg(997.3lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72.5kg
- Strengthens middle back muscles, minimizes shoulder strain
- Adjustable chest pad
- 8-level gas spring assist

LTS-106

High Row

- **Dimensions** : L1,662 × W665 × H1,852mm
(65.4" × 26.1" × 72.9")
- **Unit Weight** : 412kg(908.3lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72.5kg
- Maximized upper back engagement
- Rear-angled pad
- 8-level gas spring assist

LTS-107

Front Pulldown

- **Dimensions** : L1,282 × W1,153 × H2,024mm
(50.4" × 45.3" × 79.6")
- **Unit Weight** : 362kg(798lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72.5kg
- Plate-loaded strength implementation, pin-loaded system
- 8-level gas spring assist
- Independent weight setting available

LTS-108

Biceps Curl

- **Dimensions** : L1,612 × W886 × H1,415mm
(63.4" × 34.8" × 55.7")
- **Unit Weight** : 352kg(776lbs)
- **Stack Weight** : 2.5kg=19EA 5kg=1EA
(Top stack 5kg)
*Max.weight 52.5kg
- Deep contraction design
- 8-level gas spring assist
- Independent weight setting available

LTS-109

Triceps Curl

- **Dimensions** : L1,612 × W885 × H1,513mm
(63,4" × 34,9" × 59,5")
- **Unit Weight** : 361kg(795,8lbs)
- **Stack Weight** : 2,5kg=19EA 5kg=1EA
(Top stack 5kg)
*Max.weight 52,5kg
- Triceps-focused, neutral grip design
- Minimizes elbow strain
- 8-level gas spring assist

LTS-110

Leg Extension

- **Dimensions** : L1,341×W1,445×H1,472mm
(52,7"×56,8"×57,9")
- **Unit Weight** : 363kg(800,2lbs)
- **Stack Weight** : 2,5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72,5kg
- Strengthens quadriceps balance
- Backrest adjustable
- Independent weight setting available

LTS-111

Kneeling Leg Curl

- **Dimensions** : L1,295 × W1,381 × H1,372mm
(50,9" × 54,3" × 54,0")
- **Unit Weight** : 343kg(756,1lbs)
- **Stack Weight** : 2,5kg=19EA 5kg=5EA
(Top stack 5kg)
*Max.weight 72,5kg
- Easy knee pad adjustment
- Plate-loaded based system
- Independent weight setting available

STRENGTH
Machine

MASTERPRO Plate Load

The Master Pro Plate Load series from Lexco is designed and engineered to implement the optimal exercise angles by enabling independent movement of the plate loads for the best muscle stimulation and maximal increase in range of motion to the target muscles.

With features like a 10-level gas spring rack gear mechanism, push-button pivot, and various handle grips, the focus is on enhancing exercise efficiency during weight training, promising optimal results for both experts and beginners alike.

LS-503

Plate Loaded T-Bar Row

- **Dimensions** : L1,674 × W1,030 × H1,057mm (66.0" × 40.5" × 41.6")
- **Unit Weight** : 59kg (130lbs)
- 2 foot positions : 1 low & 1 high to fit user of different torso lengths
- Handlebars provide both narrow and wide grip positions
- Durable EP rubber foot plates provide excellent traction

LP-301

Plate Loaded Seated Chest Press

- **Dimensions** : L1,070 × W1,800 × H1,880mm (L42.0" × W71.0" × H74.0")
- **Unit Weight** : 159kg (351lbs)
- The point of movement of the handle can be adjusted while sitting on the seat, making it convenient to exercise and the diagonal driving method leads to the maximum contraction of the thoracic muscle.
- Left/Right independent exercise available type
- Adjustable 8 level of handles' range of movement
- Urethane memory foam seat
- 4 weight plate storage bars

LP-302

Plate Loaded Chest Press

- **Dimensions** : L1,545 × W1,755 × H1,085mm
(L61.0" × W69.0" × H43.0")
- **Unit Weight** : 110kg (243lbs)
- The angle at the top of the bench is designed to be 5 degrees higher to lead to the maximum contraction of the pectoralis major muscle in the press motion.
- Left/Right independent exercise available type
- Adjustable 5 level of handles' range of movement
- Urethane memory foam seat
- 2 weight plate storage bars

LP-303

Plate Loaded Incline Press

- **Dimensions** : L1,985 × W1,535 × H1,177mm
(L78.0" × W60.0" × H46.0")
- **Unit Weight** : 127kg (280lbs)
- The handle's operation point can be adjusted while lying on the bench, making it more convenient to exercise and excellent in stability with a footrest bars attached.
- Urethane memory foam seat
- Left/Right independent exercise available type
- Adjustable 5 level of handles' range of movement

LP-323

Plate Loaded Incline Fly

- **Dimensions** : L1,840 × W2,200 × H1,005 mm
(L72.4" × W86.6" × H39.6")
- **Unit Weight** : 100kg (220lbs)
- Designed at an optimal angle for upper chest stretch and contraction to create well-defined chest muscles.
- Ergonomic seat angle to minimize shoulder strain
- Precision bearings for smooth range of motion
- Urethane foam memory padding

LP-304

Plate Loaded Shoulder Press

- **Dimensions** : L1,230 × W1,370 × H1,390mm
(L48.5" × W54.0" × H55.0")
- **Unit Weight** : 122kg (269lbs)
- User can develop triangular muscles at various angles using three types of handles.
- Left/Right independent exercise available type
- Three types of handles
- Urethane memory foam seat
- 4 weight plate storage bars

LP-504

Plate Loaded Super Shoulder Press

- **Dimensions** : L1,370 × W1,330 × H1,335 mm
(L53,9" × W52,4" × H52,6")
- **Unit Weight** : 100kg (220lbs)

Allows development of the deltoid muscles from various angles using two types of handles.

- Independent left/right movement system
- Two types of grip handles
- Urethane foam memory padding

LP-322

Plate Loaded Multi Fly

- **Dimensions** : L1,153 × W1,437 × H2,186 mm
(L45,4" × W56,6" × H86,1")
- **Unit Weight** : 181kg (399lbs)

Enables precise chest fly and rear deltoid exercises in one machine.

- Adjustable range-of-motion for personalized settings
- Urethane foam memory padding

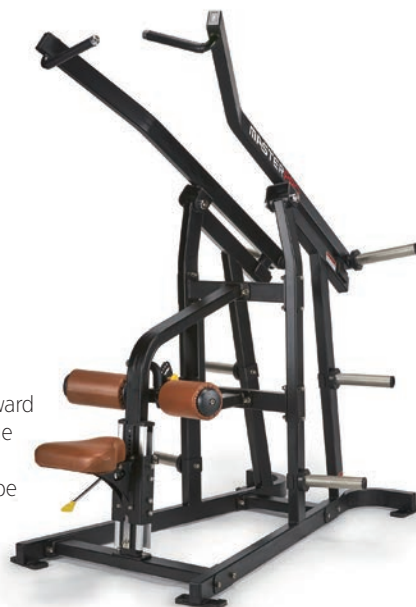

LP-305

Plate Loaded Wide Pulldown

- **Dimensions** : L1,830 × W1,090 × H2,000mm
(L72,0" × W43,0" × H79,0")
- **Unit Weight** : 148kg (326lbs)

- Handle frame drive motion which widens toward the point of contraction, enables a wide range of stimulation transmissions.
- Left/Right independent exercise available type
- Urethane memory foam seat
- 4 weight plate storage bars

LP-306

Plate Loaded High Row

- **Dimensions** : L1,520 × W1,400 × H1,995mm
(L60,0" × W55,0" × H79,0")
- **Unit Weight** : 180kg (397lbs)

- Designed in the form of V, the handle enables various back exercises from the middle to the bottom of the latissimus dorsi muscle.
- Left/Right independent exercise available type
- Apply one-arm handle
- Urethane memory foam seat
- 4 weight plate storage bars

LP-505

Plate Loaded Super Wide Pulldown

- **Dimensions** : L1,446 × W1,550 × H2,313 mm
(L56.9" × W61.0" × H91")
- **Unit Weight** : 226kg (498lbs)

The swing arc trajectory delivers deep stimulation to the lower latissimus dorsi.

- Independent left/right movement system
- Wide grip and ergonomic design
- Urethane foam memory padding

LP-307

Plate Loaded Pulldown

- **Dimensions** : L1,655 × W1,500 × H2,050mm
(L65.0" × W59.0" × H81.0")
- **Unit Weight** : 148kg (326lbs)

- Handle designed to be held under-grip can intensively develop the lower part of the latissimus dorsi muscle.
- Left/Right independent exercise available type
- Apply one-arm handle
- Urethane memory foam seat
- 4 weight plate storage bars

LP-308

Plate Loaded Seated Row

- **Dimensions** : L1,470 × W1,217 × H1,283mm
(L58.0" × W48.0" × H51.0")
- **Unit Weight** : 114kg (251lbs)

- The two types of handles designed to be held in various forms increase diversity in dorsal motion.
- Left/Right independent exercise available type
- Steel Plate foot rests
- Urethane memory foam seat

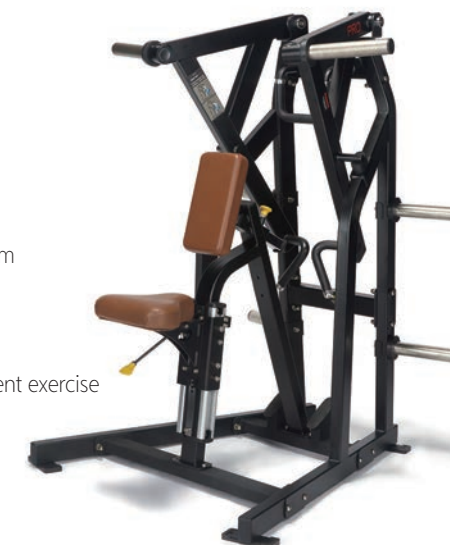

LP-309A

Plate Loaded Lateral Low Row

- **Dimensions** : L1,188 × W1,171 × H1,938mm
(46.7" × 46.1" × 76.2")
- **Unit Weight** : 130kg (287lbs)

- Urethane memory foam seat
- Assistance handle for left/right independent exercise
- Non slip foot pad on frame
- 10 level gas spring shock absorber, rack gear type saddle adjustment
- 4 weight plate storage bar

LP-310A

Plate Loaded 4-Way-Row

- **Dimensions** : L1,863 × W640 × H1,087mm
(73.3" × 25.1" × 42.7")
- **Unit Weight** : 114kg (251lbs)
- Urethane memory foam seat
- 10 level gas spring shock absorber, rack gear type saddle adjustment
- Front band fixing part to maintain load

LP-324

Plate Loaded Linear Row

- **Dimensions** : L1,655 × W1,818 × H1,636 mm
(L65.1" × W71.5" × H64.4")
- **Unit Weight** : 220kg (485lbs)
- Delivers powerful contraction stimulus to the mid-latissimus dorsi and rhomboid muscles through an ergonomic linear trajectory.
- Independent left/right movement system
- Adjustable range of motion and multi-angle grip design
- Urethane foam memory padding

LP-311

Plate Loaded V-Squat

- **Dimensions** : L2,038 × W675 × H1,753mm
(80.2" × 26.6" × 69.0")
- **Unit Weight** : 232kg (512lbs)
- (5) step stop hole with pin for various exercise range
- (3) level height adjustment safety bar
- Dual Shoulder pad (front / back) for 2-way exercise
- Gas spring shock absorber and (5) step foot plate adjustment
- Ergonomic curved urethane memory foam pads

LP-312A

Plate Loaded Power Leg Press PRO

- **Dimensions** : L2,335 × W1,605 × H1,455mm
(L56.8" × W45.8" × H51.2")
- **Unit Weight** : 255kg (562lbs)
- Extremely high weight exercise is possible with tension spring stoppers and two-stage detachable seat.
- 2 Stage detachable seat
- Tension spring stopper
- Urethane memory foam seat
- 4 weight plate storage bars

LP-313

Plate Loaded Hack Slide

- **Dimensions** : L1,802 × W1,255 × H1,273mm
(L71.0" × W49.4" × H50.1")
- **Unit Weight** : 176kg (388lbs)
- The 45-degree frame body ergonomically enables intensive stimulation transmission to the front of the femoral muscle.
- Semi-automatic stopper
- Urethane memory foam seat
- Solid EP rubber footpads for secure footing

LP-314

Plate Loaded Squat Press

- **Dimensions** : L1,960 × W1,520 × H1,363mm
(L77.1" × W59.8" × H53.6")
- **Unit Weight** : 192kg (423lbs)
- The 7-step backrest adjustment allows you to freely exercise around the desired area from the femoral muscle to the obtuse muscle, and uses a curved memory foam to protect your back while making movements similar to squats.
- 7-Step backrest adjustment
- Solid EP rubber footpads for secure footing
- Option : Additional weight plate bar

LP-315

Plate Loaded Leg Extension

- **Dimensions** : L1,642 × W1,371 × H1,150mm
(L64.6" × W54.0" × H45.3")
- **Unit Weight** : 161.5kg (356lbs)
- Dual movement systems that offer independent left/right leg exercise
- Adjustable lever with push button to adjust leg height
- Two weight plate storage bars

LP-316

Plate Loaded Kneeling Leg Curl

- **Dimensions** : L1,230 × W1,370 × H1,390mm
(L48.5" × W54.0" × H55.0")
- **Unit Weight** : 150kg (331lbs)
- Improve the separation of the femoral biceps by maximizing the concentration of muscles in a way that is driven left and right respectively.
- Left/Right independent exercise available type
- Urethane memory foam seat
- 2 weight plate storage bar

LP-317

Plate Loaded Hack Squat

- **Dimensions** : L1,436 × W1,086 × H2,163mm
(56,5" × 42,7" × 85,2")
- **Unit Weight** : 340kg (750lbs)
- Quadruple linear ball bearing
- Front and back adjustable shoulder pads
- Urethane memory foam seat
- Dual safety feature
- 4 weight plate storage bar

LP-318

Plate Loaded Pendulum Squat

- **Dimensions** : L1,912 × W1,325 × H2,130mm
(75,2" × 52,2" × 83,8")
- **Unit Weight** : 272kg (600lbs)
- Shoulder pads adjustable front and back to suit the user's body
- 3 level gas shock absorber foot control
- Mono lift type safety hook
- 2 weight plate storage bar
- Maximum weight plate allowable load : 140kg

LP-319

Plate Loaded Pull Over

- **Dimensions** : L1,378 × W1,528 × H1,520mm
(54,2" × 60,1" × 59,8")
- **Unit Weight** : 166kg (366lbs)
- Full Length dual sided ABS shroud
- Start bar to expand the range of motion by adjusting the starting position of the exercise
- 10 level gas spring shock absorber, rack gear type saddle adjustment
- Elbow pad option(Basic or Wider for USA/Europe)

LP-320

Plate Loaded Nordic Curl

- **Dimensions** : L1,787 × W1,278 × H1,516 mm
(L70,0" × W50,3" × H59,7")
- **Unit Weight** : 136kg (300lbs)
- Designed to perform Nordic curl exercises safely and effectively for hamstring strengthening.
- Precision adjustment system for knee and ankle support pads
- High-strength frame for stability during heavy training
- Urethane foam memory padding

LP-321

Plate Loaded Ground & Shoulder

- **Dimensions** : L1,080 × W1,729 × H1,741 mm
(L42,5" × W68,1" × H68,5")
- **Unit Weight** : 170kg (375lbs)

Optimized for explosive shoulder press movements utilizing ground reaction force and enhancing full-body coordination.

- Multi-angle grip handles for varied stimulation
- Joint structure maximizing rotational power of upper and lower body
- Urethane foam memory padding

LP-201

Smith Machine

- **Dimensions** : L1,330 × W2,167 × H2,118mm
(L52,3" × W85,3" × H83,3")
- **Unit Weight** : 213kg (470lbs)

- It has improved safety in hook design and boasts a smooth up and down movement of the barbell.
- Highly safe hook design
- Barbell stopper that's easy to use
- 8 weight plate storage bars

LF-509

Plate Loaded Standing Outer Thigh

- **Dimensions** : L1,726 × W920 × H1,570mm
(68,0" × 36,2" × 61,8")
- **Unit Weight** : 165kg (364lbs)

- Comfortable thigh pads
- Smooth movement that maximizes exercise effectiveness
- Two weight plate storage bars

LF-510

Plate Loaded Link Outer Thigh

- **Dimensions** : L1,565 × W1,141 × H1,419mm
(L61,6" × W45,0" × H56,0")
- **Unit Weight** : 148kg (327lbs)

- Both handles and nylon belts are installed to control the movement of the waist that can be intervened during exercise, boasting the best stability.
- Ergonomic design
- Nylon belt that improves stability
- Urethane memory foam seat
- 2 weight plate storage bars

STRENGTH
Machine

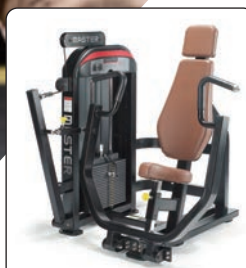

MASTER

LEXCO's new selectorized strength series, MASTER

Direct movement maximizes stimulation on the user's exercise goals and provides optimal interaction for both experts and general users.

It features a high-end ABS injection stack cover, a solid frame, and a curved memory foam backrest and seats.

Wire derailing prevention roller cover ●

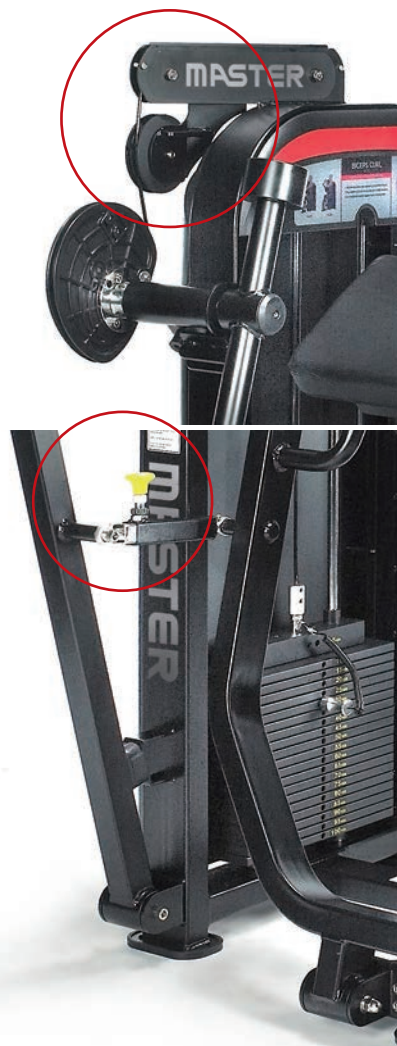

Motion range adjustment ●

Full Length rear ABS shrouds ●

Full length ABS shrouds do many things; increase safety, enclose internal parts and increase aesthetics.

● Curved memory foam back seat

Premium preformed memory foam seat pads and upholstery are standard features.

● Premium ABS seat back cover

ABS injection cover is applied to the rear of the invisible backrest seat to improve completeness to satisfy the meticulous aesthetic elements.

LM-101

Pec Fly / Rear Delt

- **Dimensions** : L1,220 × W660 × H2,025mm
(L48,0" × W25,9" × H79,7")
- **Unit Weight** : 208kg (458lbs)
- **Stack Weight** : 100kg (220lbs)
- Dual position handle that provides diversity of exercise
- Urethane memory foam seat
- ABS injection stack cover

LM-102

Lat Pull Down

- **Dimensions** : L1,536 × W650 × H2,210mm
(L60,4" × W25,5" × H87,0")
- **Unit Weight** : 208kg (458lbs)
- **Stack Weight** : 100kg (220lbs)
- Saddle pad designed for various angles of exercise
- Urethane memory foam seat
- ABS injection stack cover

LM-103

Seated Chest Press

- **Dimensions** : L1,170 × W1,216 × H1,371mm
(L46,0" × W47,8" × H53,7")
- **Unit Weight** : 214kg (472lbs)
- **Stack Weight** : 100kg (220lbs)
- 7-step adjustable handle that provides diversity of exercise
- Urethane memory foam seat
- ABS injection stack cover

LM-104

Shoulder Press

- **Dimensions** : L1,552 × W1,358 × H1,345mm
(L61,1" × W53,4" × H52,9")
- **Unit Weight** : 237kg (523lbs)
- **Stack Weight** : 100kg (220lbs)
- Applied good handle angle that realizes the optimal exercise angle
- Urethane memory foam seat
- ABS injection stack cover

LM-105

Incline Press

- **Dimensions** : L1,881 × W1,313 × H1,330mm
(L74.0" × W51.6" × H52.3")
- **Unit Weight** : 233kg (514lbs)
- **Stack Weight** : 100kg (220lbs)
- 7-step adjustable handle that provides diversity of exercise
- Urethane memory foam seat
- ABS injection stack cover

LM-106

Butterfly

- **Dimensions** : L820 × W1,455 × H1,375mm
(L32.2" × W57.2" × H54.1")
- **Unit Weight** : 186kg (410lbs)
- **Stack Weight** : 75kg (165lbs)
- Applied good handle pipe design that realizes optimal motion
- Urethane memory foam seat
- ABS injection stack cover

LM-107

Biceps Curl

- **Dimensions** : L1,005 × W995 × H1,330mm
(L39.5" × W39.1" × H52.3")
- **Unit Weight** : 162kg (357lbs)
- **Stack Weight** : 75kg (165lbs)
- Armrest pads designed to achieve optimal muscle contraction and relaxation
- Urethane memory foam seat
- ABS injection stack cover

LM-108

Low Row

- **Dimensions** : L1,985 × W650 × H1,880mm
(L78,1" × W25,5" × H74,0")
- **Unit Weight** : 201kg (443lbs)
- **Stack Weight** : 100kg (220lbs)
- Solid EP rubber footpads for secure footing
- Urethane memory foam seat
- ABS injection stack cover

LM-109

Seated Dip

- **Dimensions** : L1,175 × W935 × H1,330mm
(L46,2" × W36,8" × H52,3")
- **Unit Weight** : 166kg (366lbs)
- **Stack Weight** : 75kg (165lbs)
- Angled backrest that provides stability.
- Urethane memory foam seat
- ABS injection stack cover

LM-110

Abdominal

- **Dimensions** : L1,245 × W1,080 × H1,455mm
(L49,0" × W42,5" × H57,2")
- **Unit Weight** : 212kg (467lbs)
- **Stack Weight** : 100kg (220lbs)
- Stable foot holder and footrest for effective muscle contraction
- Urethane memory foam seat
- ABS injection stack cover

LM-113

Rotary Torso

- **Dimensions** : L1,605 × W800 × H1,330mm
(L63,1" × W31,4" × H52,3")
- **Unit Weight** : 170kg (375lbs)
- **Stack Weight** : 75kg (165lbs)
- Thigh pads that provide stability
- Urethane memory foam seat
- ABS injection stack cover

LM-111

Cable Crossover

- **Dimensions** : L890 × W2,185 × H2,290mm
(L35,0" × W86,0" × H90,1")
- **Unit Weight** : 329kg (725lbs)
- **Stack Weight** : 150kg (330lbs)
- 19-level adjustment rail that provides various exercises and angles
- 10 handle holders
- ABS injection stack cover

LM-112

Dual Pulley

- **Dimensions** : L890 × W1,565 × H2,290mm
(L35,0" × W61,6" × H90,1")
- **Unit Weight** : 314kg (692lbs)
- **Stack Weight** : 150kg (330lbs)
- 19-level adjustment rail that provides various exercises and angles
- 6 handle holders
- ABS injection stack cover

LM-114

Assisted Chin / Dip

- **Dimensions** : L1,175 × W1,130 × H2,300mm
(L46,2" × W44,4" × H90,5")
- **Unit Weight** : 277kg (611lbs)
- **Stack Weight** : 100kg (220lbs)
- Dual chinning handles that provide diversity of exercise
- ABS injection stack cover
- Folding type knee pad

LM-115

Leg Extension

- **Dimensions** : L1,280 × W990 × H1,340mm
(L50,3" × W38,9" × H52,7")
- **Unit Weight** : 214kg (472lbs)
- **Stack Weight** : 100kg (220lbs)
- Angled saddle and backrest designed for optimal muscle contraction and relaxation
- Urethane memory foam seat
- ABS injection stack cover

LM-116

Outer Thigh

- **Dimensions** : L1,640 × W650 × H1,330mm
(L64,5" × W25,5" × H52,3")
- **Unit Weight** : 188kg (414lbs)
- **Stack Weight** : 75kg (165lbs)
- Easy-to-use extended operating range handle
- Urethane memory foam seat
- ABS injection stack cover

LM-117

Seated Leg Press

- **Dimensions** : L1,550 × W985 × H1,870mm
(L61,0" × W38,7" × H73,6")
- **Unit Weight** : 280kg (617lbs)
- **Stack Weight** : 100kg (220lbs)
- Angled backrest designed for optimal muscle contraction
- Solid EP rubber footpads for secure footing
- Urethane memory foam seat
- ABS injection stack cover

LM-118

Inner Thigh

- **Dimensions** : L1,640 × W650 × H1,330mm
(L64,5" × W25,5" × H52,3")
- **Unit Weight** : 188kg (414lbs)
- **Stack Weight** : 75kg (165lbs)
- Easy-to-use extended operating range handle
- Urethane memory foam seat
- ABS injection stack cover

LM-119

Total Hip

- **Dimensions** : L1,295 × W1,110 × H1,445mm
(L50.9" × W43.7" × H56.8")
- **Unit Weight** : 189kg (417lbs)
- **Stack Weight** : 75kg (165lbs)
- Adjustable pop-pin that adjusts the starting position and range of exercise
- Solid EP rubber footpads for secure footing
- ABS injection stack cover

LM-120

Prone Leg Curl

- **Dimensions** : L1,740 × W970 × H1,330mm
(L68.5" × W38.1" × H52.3")
- **Unit Weight** : 209kg (461lbs)
- **Stack Weight** : 100kg (220lbs)
- Adjustable handle for stable angle adjustment.
- Urethane memory foam seat
- ABS injection stack cover

LM-121

Seated Row

- **Dimensions** : L1,370 × W885 × H1,910mm
(L53.9" × W34.8" × H75.1")
- **Unit Weight** : 223kg (492lbs)
- **Stack Weight** : 100kg (220lbs)
- Multi-grip handle for various exercise options.
- Solid EP rubber footpads for secure footing
- Urethane memory foam seat
- ABS injection stack cover

STRENGTH
Machine

MASTER *Free Weight*

LEXCO's free weight LF master is designed to put optimal load on the exercise area of body.

The physical stability provided by the curved memory foam helps increase the range of motion of the body segment during exercise, and the application of ergonomic design allows exercise optimized for the development of target muscles.

Designed to maximize the effectiveness of exercise, the free weight LF master series will provide an optimal exercise environment to satisfy for both experts and the general public.

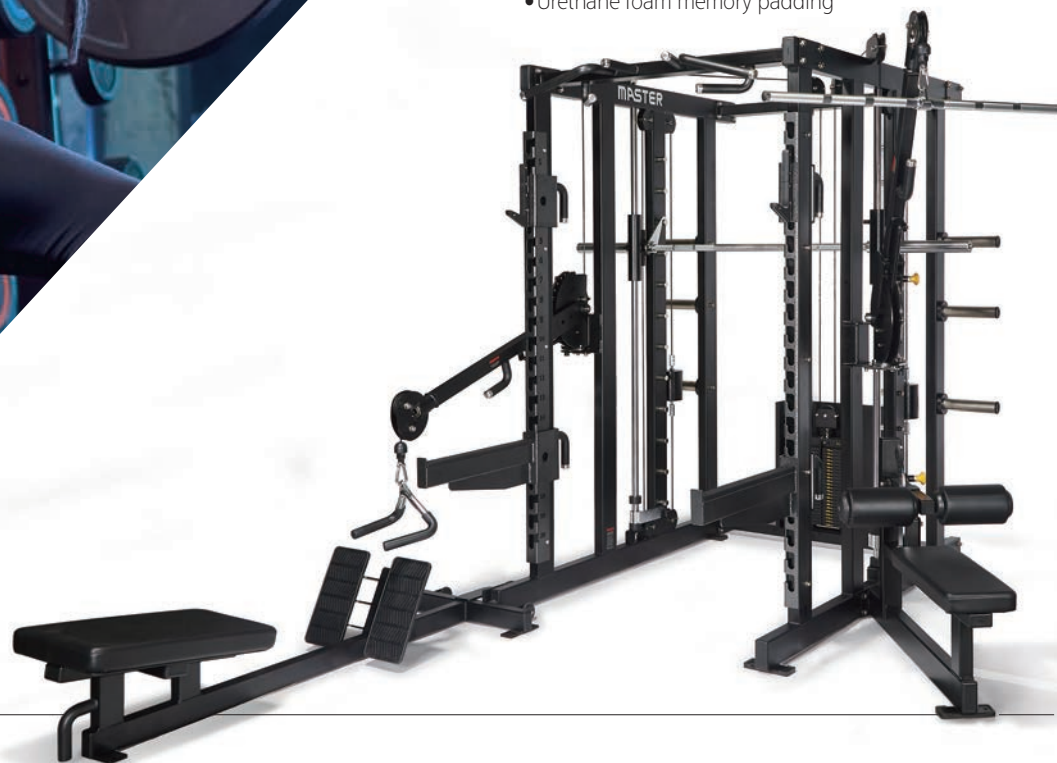

LF-501

Multi Functional Station

- **Dimensions** : L2,030 × W2,757 × H2,256 mm
(L79.9" × W108.5" × H88.8")
- **Unit Weight** : Approx. 610 kg (1,345lbs)

Combines a rack system and cable station to enable dozens of full-body exercises even in limited space.

- Safety bar for heavy squats and presses
- Smooth cable operation and multi pull-up bar included
- Urethane foam memory padding

LF-201

Smith Machine

- **Dimensions** : L1,305 × W2,021 × H2,052mm
(L51.3" × W79.5" × H80.7")
- **Unit Weight** : 205kg (452lbs)
- 10kg dual weight that increases safety and stability
- Installed chrome plated weight lift bar
- 8 weight plate storage bars

LF-202

Power Leg Press

- **Dimensions** : L2,175 × W1,600 × H1,235mm
(L85.6" × W62.9" × H48.6")
- **Unit Weight** : 194kg (428lbs)
- Various angle adjustable backrest
- 2 step manual stopper for user safety
- Urethane memory foam seat

LF-203

Half Rack

- **Dimensions** : L1,300 × W1,711 × H2,235mm
(L51.1" × W67.3" × H87.9")
- **Unit Weight** : 142kg (313lbs)
- 20-level lock positions
- 10 weight plate storage bars

LF-203R

Half Rack-R

- **Dimensions** : L1,300 × W1,711 × H2,235mm
(L51.1" × W67.3" × H87.9")
- **Unit Weight** : 145kg (320lbs)
- 20-level lock positions
- 10 weight plate storage bars
- Rope attachment

LF-204

Power Rack

- **Dimensions** : L1,747 × W1,711 × H2,300mm
(L68,7" × W67,3" × H90,5")
- **Unit Weight** : 211kg (465lbs)
- 20-level lock positions
- 10 weight plate storage bars

LF-205

Multi Half Rack

- **Dimensions** : L1,940 × W2,036 × H2,200mm
(L76,3" × W80,1" × H86,6")
- **Unit Weight** : 293kg (646lbs)
- 20-level lock positions
- Dual 10kg counterbalance system for enhanced safety and stability
- 8 weight plate storage bars

LF-208

Olympic Incline Bench

- **Dimensions** : L1,410 × W1,761 × H1,370mm
(L55,5" × W69,3" × H53,9")
- **Unit Weight** : 59kg (130lbs)
- Two barbell holders for added safety
- Urethane memory foam seat
- 2 weight plate storage bars

LF-209

Olympic Decline Bench

- **Dimensions** : L1,867 × W1,755 × H1,055mm
(L73,5" × W69,0" × H41,5")
- **Unit Weight** : 68kg (150lbs)
- Two barbell holders for added safety
- Urethane memory foam seat
- 2 weight plate storage bars

LF-210

Chin / Dip / Leg Raise

- **Dimensions** : L1,355 × W1,176 × H2,235mm
(L53,3" × W46,2" × H87,9")
- **Unit Weight** : 81kg (179lbs)
- Improved stability of backrest and elbow pads
- Urethane memory foam backrest
- Dual chin-up handles for exercise variety
- Solid EP rubber footpads for secure footing

LF-211

Dual Torso Twist

- **Dimensions** : L1,420 × W600 × H1,325mm
(L55,9" × W23,6" × H52,1")
- **Unit Weight** : 51kg (112lbs)
- Memory foam seat for enhanced stability
- Anti-slip steel footplate

LF-212

Back Extension Bench

- **Dimensions** : L1,145 × W665 × H740mm
(L45,0" × W26,1" × H29,1")
- **Unit Weight** : 45kg (99lbs)
- High-density memory foam thigh pad for stability
- Solid EP rubber footpads for secure footing

LF-213

Adjustable Sit-Up Bench

- **Dimensions** : L1,604 × W660 × H895mm
(L63,1" × W25,9" × H35,2")
- **Unit Weight** : 45kg (99lbs)
- Curved memory foam pad for enhanced user comfort
- 17-level adjustable backrest
- Easy transport with two wheels and a handle

LF-214

Leg Raise

- **Dimensions** : L1,355 × W735 × H1,915mm
(L53,3" × W28,9" × H75,3")
- **Unit Weight** : 71kg (157lbs)
- Improved stability of backrest and elbow pads
- Urethane memory foam backrest
- Solid EP rubber footpads for secure footing

LF-215

Olympic Squat Rack

- **Dimensions** : L1,410 × W1,761 × H1,663mm
(L55,5" × W69,3" × H65,4")
- **Unit Weight** : 84kg (185lbs)
- 3 barbell holders
- 4 weight plate storage bars

LF-216

Olympic Bench Press

- **Dimensions** : L1,635 × W1,761 × H1,158mm
(L64,3" × W69,3" × H45,5")
- **Unit Weight** : 60kg (132lbs)
- Two barbell holders for added safety
- Urethane memory foam seat
- 2 weight plate storage bars

LF-216A

Olympic Bench Press(Safety Stoppers)

- **Dimensions** : L1,625 × W1,711 × H1,291 mm
(L64,0" × W67,4" × H50,8")
- **Unit Weight** : 128kg (282lbs)

- Equipped with an adjustable safety bar that ensures complete user safety during heavy bench press training.
- High-strength steel frame for superior durability and stability
- Multi-level rack structure for convenient barbell placement
- Urethane foam memory padding

LF-217

Adjustable Flat / Incline Bench

- **Dimensions** : L1,420 × W555 × H440mm
(L55,9" × W21,8" × H17,3")
- **Unit Weight** : 36kg (79lbs)
- 19-level adjustable backrest
- 12-level adjustable seat
- Easy transport with two wheels and a handle
- Urethane memory foam seat

LF-218A

Adjustable Curl Bench

- **Dimensions** : L946 × W832 × H1,011 mm
(L37,2" × W32,8" × H39,8")
- **Unit Weight** : 52kg (115lbs)
- Promotes complete isolation of the biceps for efficient arm muscle development.
- Adjustable seat and pad system to fit different body types
- Wide foot platform for stable support
- Urethane foam memory padding

LF-219

Adjustable Decline Bench

- **Dimensions** : L1,485 × W625 × H620mm
(L58,4" × W24,6" × H24,4")
- **Unit Weight** : 39kg (86lbs)
- Curved memory foam pad for enhanced user comfort
- 8-level adjustable backrest
- Urethane memory foam seat
- Easy transport with two wheels and a handle

LF-220

Flat Bench

- **Dimensions** : L1,220 × W660 × H440mm
(L48,0" × W23,6" × H17,3")
- **Unit Weight** : 24kg (53lbs)
- Easy transport with two wheels and a handle
- Urethane memory foam seat

LF-221

Seated Calf

- **Dimensions** : L1,370 × W600 × H895mm
(L53,9" × W23,6" × H35,2")
- **Unit Weight** : 45kg (99lbs)
- 11-level adjustable knee pads
- Anti-slip steel footplate
- Urethane memory foam seat

LF-222

Three-Tier Dumbbell Rack

- **Dimensions** : L780 × W2,465 × H990mm
(L30,7" × W97,0" × H38,9")
- **Unit Weight** : 104kg (229lbs)
- 30 molded plastic dumbbell holders for safe use
- Holds up to 15 pairs of dumbbells

LF-224

Olympic Plate Tree

- **Dimensions** : L645 × W600 × H1,370mm
(L25,7" × W23,6" × H53,9")
- **Unit Weight** : 29kg (64lbs)
- 6 weight plate storage bars
- Space-saving design

LF-225

Two-Tier Dumbbell Rack

- **Dimensions** : L615 × W2,465 × H700mm
(L24,2" × W97,0" × H27,5")
- **Unit Weight** : 70kg (154lbs)
- 20 molded plastic dumbbell holders for safe use
- Holds up to 10 pairs of dumbbells

LF-226

Barbell Rack

- **Dimensions** : L925 × W980 × H1,405mm
(L36,4" × W38,5" × H55,3")
- **Unit Weight** : 52kg (115lbs)
- 10 barbell holders with a simple design

LF-227

Utility Bench

- **Dimensions** : L1,270 × W550 × H870mm
(L50,0" × W21,6" × H34,2")
- **Unit Weight** : 24kg (53lbs)
- Curved memory foam seat for enhanced comfort
- Stabilizing footrest
- Easy transport with two wheels
